Investments Capital

Sports Trading

By 2019 we had 100% of our investors focused on Sports Trading, a market that suffered a lot from the pandemic. Many people believe that cryptocurrencies are now being seen as diversifying in the face of stock market volatility.

Electric Cars

Kripto Future supports and participates in some projects linked to Tesla, Elon Musk's company, the project is for the United Kingdom to be the first to have 100% electric car until 2023, Kripto Future will be fundamental on this.

Internet of The future

One of Kripto Future's biggest best is 100% internet connection via satellite, so we are investing heavily in the Starlink project that aims communication system.

What we are Doing?

Kripto Future has a **large team of crypto traders** that have developed a robot that **works 24/7** to make the most of it seeking to absorb 100% of investment banking loss. Thinking about it, Liverpool business people in England **worried about the current global economic crisis** and decided to **launch the project to the world** audience to **help capitalize and prosper families** through cryptocurrencies.

With a daily turnover of **approximately \$ 300 billion** and more than **7 thousand different cryptocurrencies**, the cryptocurrency market is becoming increasingly **profitable and dynamic**, which is why Kripto Future has **the best crypto trading experts in the world**. Where they joined their techniques and **knowledge to the (QSIAC) Quantum system** with cognitive artificial intelligence, to perform operations 24 hours a day, with an **annual average of 97% in hits**. Thus bringing safe results to its **partners is investors**.
